A gracious entry foyer sets the tone with its arched doorways, custom millwork, leaded glass windows, and rich hardwood flooring. The sun-drenched formal living room, anchored by a stately fireplace, flows seamlessly into a radiant sunroom, creating an ideal space for both intimate gatherings and grand entertaining. The sunroom features multiple banks of windows overlooking the property and French doors to the Bluestone patio and rear yard.

Across the foyer, the formal dining room offers an exquisite setting for dinner parties and leads to the show-stopping eat-in kitchen. A walk-in pantry and bar zone with refrigerator drawers and wine refrigerator, and a custom butler's pantry elevate the space with function and flair.

Designed with the gourmet chef in mind, the kitchen features custom cabinetry, a quartz-topped center island with bar seating, subway tile backsplash, and top-of-the-line professional appliances including Bosch, Viking, SubZero and Miele. The octagonal breakfast room and convenient desk area provide space for easy family living.

Adjacent to the kitchen, the inviting family room exudes warmth with rich, cherry wood paneling, coffered ceiling, fireplace with leathered granite hearth, and built-in cabinetry. A beautifully appointed powder room with custom, grasscloth wall covering and marble sink, mud room and attached two-car garage complete the first level.

The second and third floors boast six generously proportioned bedrooms and five luxuriously finished baths. The primary suite is a serene retreat with a spa-inspired bath and massive walk-in closet/dressing room with center island and built-in shelving.

The newly renovated primary bath features radiant heated marble floors, dual marble vanities, a soaking tub, and a frameless glass steam shower.

Each additional bedroom is bathed in natural light and includes custom-fitted closets. The third floor features a charming bedroom under the eaves with trundle beds, office space and a full bath - the perfect spot for fun sleepovers with friends! Above the garage and accessed via its own staircase is a totally private bedroom suite with cathedral ceiling and fully renovated bath - the perfect spot for guests or an au-pair.

The fully finished lower level offers an abundance of space for recreation including a sunken media room, recreation area, homework or study station with built-ins, a laundry room, and a half bath. There are also several storage areas and a utility room.

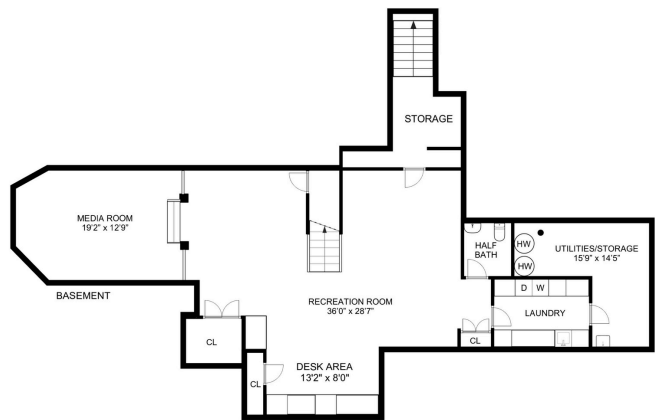

Step outside through multiple sets of French doors and enjoy alfresco living on the expansive Bluestone patio overlooking the private, fully fenced rear lawn — perfect for entertaining, play, or peaceful relaxation. The professionally landscaped property is magnificent and features stone walls, newly planted shrubbery beds, extensive open lawns and hundreds of flowers which bloom throughout the year.
